

EKHOS

CLOUD-BASED PBX PHONE SYSTEM FOR MODERN BUSINESSES IN THE PHILIPPINES

REDUCED UPFRONT COSTS

Eliminate the need for expensive hardware investments, such as PBX servers and phone lines.

EFFICIENT CALL ROUTING

Implement Interactive Voice Response (IVR) to automatically direct callers to the appropriate department or agent

ENHANCED TEAM COLLABORATION

Facilitate efficient communication and collaboration among team members with group calling and conference calling features

REMOTE WORK FLEXIBILITY

Stay connected to your business from anywhere with web calling and mobile app capabilities.

EXPERIENCE THE FUTURE OF BUSINESS COMMUNICATION WITH EKHOS

Experience the Future of Business Communication with **EKHOS**. **EKHOS**, more than just a phone system, is a powerful communication tool designed to empower your business. By leveraging the latest cloud technology, **EKHOS** offers a comprehensive suite of features to streamline your operations and enhance customer experiences.

Our advanced **SIP Trunk** technology ensures reliable and efficient inbound call handling for your business in the Philippines, including the ability to obtain virtual Manila numbers and other locations. With flexible call routing options, you can direct calls to the right person or department, improving response times and boosting customer satisfaction.

OUTBOUND FEATURES

MULTIPLE SESSIONS (SIP TRUNK): Handle different calls simultaneously, increasing productivity and maximizing opportunities. This allows your sales team to connect with more potential customers in less time, leading to increased sales and revenue growth.

DEDICATED OUTBOUND CHANNELS: Optimize outbound campaigns with dedicated channels for smooth and efficient communication. Maximize reach and minimize delays.

FLATRATE SIMULTANEOUS CALLS TO ANY NETWORK IN THE PHILIPPINES: Enjoy predictable and cost-effective communication with unlimited simultaneous calls to any network nationwide.

SOFT PHONE APP FOR IOS/ANDROID/WINDOWS: Empower your team to work from anywhere. The 3CX Soft Phone App enables seamless communication on any device, increasing flexibility and productivity.

INBOUND FEATURES

PHILIPPINE VIRTUAL NUMBERS (DID): Easily establish a professional presence with a single virtual number in Manila. This allows you to connect with customers nationwide, regardless of your physical location, while also simplifying your communication process by managing various lines with this single number.

Elevate Your Business Communication with EKHOS, the smartest Cloud PBX Service in the Philippines

SEAMLESS OPERATION AND EASY MANAGEMENT: Access your phone system from anywhere with an internet connection. Easily manage users, configure settings, and monitor call activity through a user-friendly web interface.

IDEAL FOR BUSINESSES IN THE PHILIPPINES: Perfect for businesses operating remotely, with multiple locations, or those seeking greater flexibility and scalability.
